

ODD EVEN KATA

Please follow the requirements below, pairing and test driving your code of course, and have fun.

REQUIREMENTS

A slightly more complex take on the FizzBuzz kata.

Rules: Write a program that prints the numbers from 1 to 100, but...

1. For numbers that are even, print "EVEN".
2. For numbers that are odd, print "ODD".
3. For numbers that are prime (only divisible by 1 and itself), print "PRIME"
